WOMEN'S APPAREL SHOP THRONED WITH MEN!
Dispel the thought that men do not like to visit a women's shop!
Anyone who has been in Switzer's Style Shop during the past week has seen any number of men grouped around tables of sweaters and racks of dainty blouses—selecting furs and even the most bashful of men will nowadays apply themselves to the matter of choosing silk underwear. What his the world coming to?

Walter Switzer who runs this exclusive shop says he has tried in every way to get the men interested in shopping freely in his store. But this season, for some reason, the men need no invitation. He said yesterday, "You might think we had pool tables or a boxing match in this shop the way the men flock in."

We have been wondering if the fact that this progressive shop has a beautiful living model parading about in the most attractive silhouettes has anything to do with the fondness the men seem to have for this shop. But it is perfectly all right—the showing of the most attractive models on this attractive young girl—because it is done these days in the very best and most sedate stores on Fifth avenue, New York.
